SUMMARY

Final-year Artificial Intelligence and Data Science undergraduate with strong foundation in software engineering, machine learning, and data-driven systems. Experienced in building AI-powered applications, APIs, and analytics solutions using Python and modern frameworks. Familiar with Generative AI tools, prompt engineering, cloud platforms, DevOps fundamentals, and Agile workflows. Passionate about building scalable AI-augmented software systems and seeking a Trainee Software Engineer role to contribute to innovative product development.

TECHNICAL SKILLS

Programming Languages: Python, SQL

AI & Machine Learning: Scikit-learn, Computer Vision, YOLO, NLP, Feature Engineering, Model Evaluation, RAG

Generative AI: LangChain, OpenAI, ChatGPT, GitHub Copilot, Prompt Engineering, LLM, Vector Databases, Claud.

Software Development: OOP Concepts, Algorithms & Data Structures, SDLC

Backend Development: FastAPI, Flask, Streamlit

Cloud & DevOps: AWS Fundamentals, DevOps Fundamentals, CI/CD Pipelines

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Zoho Analytics, MS Excel

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Docker, Jira, Zoho Projects

Concepts: Agile/Scrum, Data Modeling, ETL, Data Cleaning, Statistical Analysis

EXPERIENCE

Data Analyst Intern

Sept 2025 – Dec 2025

Inorbvict Healthcare Pvt. Ltd., Pune, India

- Built interactive business intelligence dashboards using Zoho Analytics to monitor KPIs and operational metrics.
- Designed employee productivity dashboards improving visibility into workflow efficiency and task completion.
- Conducted Zoho Projects training sessions to enhance Agile project tracking and collaboration.
- Developed Jira dashboards for sprint tracking, issue resolution, and engineering workflow monitoring.
- Created Git analytics dashboards to analyze commits, pull requests, and development activity.

PROJECTS

Sales CRM AI Chatbot

Nov 2025

Python, OpenAI API, Scikit-learn, MongoDB, Streamlit, Flask [Link](#)

- Developed an AI-powered CRM chatbot to automate lead handling and customer engagement.
- Implemented machine learning models for lead qualification, intent detection, and sales funnel stage prediction.
- Integrated OpenAI APIs and prompt engineering techniques to generate intelligent responses.
- Built REST APIs using Flask for backend integration and deployed a Streamlit web interface.
- Stored customer data and chat logs in MongoDB for analytics and tracking.

Loan Prediction Machine Learning Model

Apr 2025

Python, Scikit-learn, XGBoost, Streamlit [Link](#)

- Developed a machine learning model for loan eligibility prediction using XGBoost.
- Performed data cleaning, feature engineering, and exploratory data analysis.
- Built an interactive Streamlit application for real-time loan prediction.

- Built a computer vision system using YOLOv8 for real-time vehicle detection from video streams.
- Implemented OCR-based license plate recognition for automated vehicle identification.
- Developed FastAPI backend services for processing vehicle data and monitoring system events.
- Designed a dashboard for tracking vehicle entry/exit logs and parking management.
- Implemented CI/CD pipeline for automated code integration and deployment.

EDUCATION

Bachelor of Engineering in Artificial Intelligence and Data Science

Savitribai Phule Pune University, Pune, India

2022 – 2026

Higher Secondary Certificate (HSC) – 78.83%

Kai. Sau. G. F. Patil Junior College, Maharashtra

2022

Secondary School Certificate (SSC) – 88.00%

Sheth V. K. Shah Vidya Mandir, Maharashtra

2020

CERTIFICATIONS

- Mastery in Data Science and Data Analytics with AI – ItVedant Education2025
- Machine Learning with Python – IBM2025
- Data Science and Data Analytics with Python – IBM2025
- Amazon Web Services (AWS) – ItVedant Education2025
- Fundamentals of DevOps – ItVedant Education2025

EXTRACURRICULAR ACTIVITIES

Co-Founder & Mod Creator – BMI PREMIUM Mods

2020 – 2025

- Co-founded a digital brand creating custom vehicle mods for Euro Truck Simulator 2.
- Designed high-quality vehicle liveries focusing on realism, branding, and user experience.
- Managed community engagement and content promotion through YouTube and Instagram.
